FOR IMMEDIATE RELEASE

HARDIN COUNTY CHAMBER AND BUSINESS ALLIANCE BOARD OF DIRECTORS ENDORSE VOTE YES KCS LEVY

The Hardin County Chamber and Business Alliance Board of Directors endorses the Kenton City School District's new building levy on November 2, 2021.

Our job as a board is to promote and enhance infrastructure in our county. The board recognizes that one of the most important attractions to a business relocating is the school system. We, as a board, have the duty and obligation to support these levies when they are in the best interest of enhancing the infrastructure of our community to promote economic development.

The number one goal of the Alliance is to have and support a strong educated community. We understand the importance of workforce and how important education is for companies seeking high quality employees. By keeping our primary and secondary schools strong and competitive, the ability for our students to be successful in lifelong learning and to be high value employees is greatly enhanced.

The Alliance Board of Directors strongly encourages voters to support the Kenton City School District Bond Levy for a new Middle/High School. The future of our community is being educated now.
